

Stouffville Road site detectives

Explore the tunnel and investigate Dr Jonathon's project.

Name _____ Date _____

Stay with your adult in permitted areas. Observe wildlife and equipment without touching.
Stay in a safe spot and imagine your measuring objects lined up. No need to place them!

01 / SCAVENGER HUNT - THREE DETECTIVE MISSIONS

Sketch your discoveries below, then show a partner your favourite clue!

1. WILDLIFE DETECTIVE

Sketch an animal or a clue.
No clues? Draw a hiding spot.

2. WATER TRACKER

Sketch the ground. Add arrows
to predict where rain would flow.

3. TECH SPOTTER

Draw a gadget you spot. Label
what you think its job might be.

02 / TUNNEL & TECHNOLOGY - COLLECT THE CLUES

Choose a fun unit! Imagine apples, bananas or footsteps lined up end to end.

My unit of measurement is: _____

Tunnel length: About _____ of my chosen unit

Opening width: About _____ of my chosen unit

Opening height: About _____ of my chosen unit

Tunnel material(s): _____

Inside the tunnel: ground, light or water details: _____

What technology did Dr Jonathon use? List or describe it: _____

Where was the equipment placed? _____

03 / THINK LIKE AN ENGINEER

1. How could this tunnel help wildlife? Use one clue from your visit.

2. What idea from this project would you try in our model, and why?
