

Homework Week 05

Invent a Better Animal Recorder

Name: _____

Date: _____

Think about how Dr Jonathon's project records animals using the tunnel.

How could we improve his method using our M5Stack and sensors?

1 / INVENT A NEW FEATURE

What new feature would you add to improve how animals are recorded?

Give your invention a name and explain what it would do.

2 / GIVE THE M5STACK A JOB

In your invention, what should the M5Stack do when an animal passes?

Explain what it would sense, count, display or save, and any extra sensor it might need.

3 / DRAW YOUR NEW INVENTION

Draw the new idea you invented above. Label the M5Stack, any sensors and your new feature.

Use arrows to show how it works when an animal passes.

4 / PLAN A TEST

How could you test your idea with a toy animal in our model?

How would you know it worked?

Our idea improves animal recording because...

Be creative! You don't need to know how to program your idea yet.
